Welcome to a 15 days intensive training to be a certified Facilitator of Education 3000 (Pedagoogia 3000). Spend two wonderful weeks in the magic Sun Island of the Titikaka lake, Bolivia.

What is P3000?

Pedagoogia 3000 started in South America in 2001. It is a worldwide invitation to transform education together, for a more comprehensive, humane, fun and loving Education. Pedagoogia 3000 is translated as **Educatiooon 3000** In English. The abbreviated version in all languages is **P3000**.

We are co-creating an Education that addresses the real needs of:

- Today's and tomorrow's children
- A new society
- And our Planet Earth.

P 3000 impulses a **pedagogic synergy** that prioritizes today's and tomorrow's children, with their changes, their specific needs and their new way of learning. P3000 promotes scientific and applied research, as well as a constant co-creation of pedagogic comprehensive tools that allow a re-connection and a harmonious holistic development of babies, children, youth, parents and teachers. It's flexible and based on the new Third Millennium paradigms, as well as affection and care. It adapts itself to

EDUCATION 3000

Tomorrow's Education, Today

the local reality, local culture, local economy and local cosmovision. It is multicultural, multilingual and ecological.

P3000 goes in hand with eMe **"Worldwide Link for A new education"**, which invites all countries to unite for a **Peace** Education, that's creative and fun, and thus encourages a holistic development of the human being, the development of a society in solidarity and the expansion of consciousness for all people. We started the program of the **FreePoortal** in 2019 to make all contacts easier and all information available in real time.

Within its activities, P3000 launched in 2013 with its founder Noemi Paymal, a training program for "P3000 Certified Facilitators", in order to address the constant demand for trainings in many different countries in the world. The Facilitators will then be able to give conferences and workshops to the public and be a P3000 contact in their respective country or wherever it is necessary. Said training has allowed to train 120 facilitators to date (2018) in Latin America and Europe.

What is the Certified Facilitators of P3000 training?

Designed as a 15 days intensive training, it encompasses a large variety of subjects related to children, their learning capabilities and well-being and as well Public Relation abilities. At the end of it, Facilitators 3000 are able to give public conferences and workshops on the subject. They join an international network of Certified Facilitators 3000, having access to tools that promote and encourage people to realize changes within education in a practical way, using various pedagogical and innovative strategies.

Who can take the training?

Training is open to anyone who:

- Wishes with all their heart to participate in a program to change Education in the World
- Wishes to enjoy interacting with groups and to LISTEN
- Enjoys public speaking.

Objectives

The main objective for this training is that the Facilitator:

EDUCATION 3000

Tomorrow's Education, Today

- Be able to present P3000 to different types of audiences and institutions offering conferences, workshops, training series and other events, as well as present P3000 to media outlets such as radio, television, written press, etc.
- Have access to tools that promote and encourage people from his/her own area, city or country to become enthusiastic and make changes within education in a practical way, using various pedagogic innovation strategies.
- Can help with the setting of 7 Petal Schools.
- May give on line classes.

Consciousness shift

Being a Certified Facilitator for P3000 implies a **great responsibility** which involves having a strong commitment to P3000, to him/herself and above all to today's (and tomorrow's) children and youth.

Therefore, it implies being daring enough to delve into deep self-development, since a Facilitator 3000 also represents a change in consciousness, having to be an **example** of peace, listening, empathic communication, humility, positivism and being proactive, among other qualities.
